Graduate Programs in Data & Business Analytics

The big data boom reverberates through every aspect of modern life, driving new technology while requiring business and tech leaders to become experts in data and its analysis. Boston University's Metropolitan College (MET) prepares you for exciting careers in data with graduate programs in analytics that offer rigorous, practical academic curricula along with liberating flexibility and an engaging community.

Business Analytics Graduate Programs

Gain hands-on experience with a variety of analytical models and decision-support tools that you can apply to interlinked data-inputs and large data sets in the areas of marketing, operations, product and technology innovations, financial services, human resource management, supply chains, and other areas.

- MS in Applied Business Analytics
- MS in Insurance Management
  - Applied Business Analytics Concentration
- MS in Supply Chain Management

  - AI & Machine Learning Concentration
  - Data Engineering Concentration
- MS in Computer Information Systems
  - Data Analytics Concentration
- MS in Computer Science (on campus only)
  - Data Analytics Concentration
- MS in Health Informatics
  - Applied Data Analytics Concentration
- Graduate Certificate in Data Analytics

PROGRAM FEATURES

- Degree programs can be completed in as few as two years on a part-time basis, on campus or online. Full-time study is also available.
- Our top-quality faculty share your passion for data analysis. Get the preparation to succeed in this rapidly growing field—whether you want to enhance your career, or change it.
- Courses are offered on campus or online. Online format includes small, online, facilitator-led mentoring groups (average facilitator/student ratio 1:24); online courses begin six times a year.
- Units earned for a graduate certificate can be applied towards the corresponding master's degree.
- Applications are accepted on a rolling admissions basis.
- GMAT/GRE not required.
- All applicants to a master's degree program are automatically considered for merit scholarships, and admitted students are nominated based on eligibility.

LEARN FROM THE BEST
